NUMBER 5017

WEDNESDAY, APRIL 24, 1745.

Warsaw, April 10.

F the Distractions that happened in the last Dyer defeated the Design of the Court, to engage the Republick to take the same Share in the Troubles of Germany that the King, in Quality of Elector of Saxony, has done, they do not seem to have alter'd the Sentiments of the greater Part

on that Head, but rather to have contented themselves with the Ease and Expedition with which the Regiments have been rais'd that were thought necessary for the King's Service. It seems likewise probable, that this very Project will be once more put up, and perhaps, carried into Execution with more Facility, than, considering the Nature of our Condition, can well be imagined; since it is very certain, that a Quantity of Arms and Military Stores have been brought up, and sent into this Kingdom, for the Crown Army, since the Rupture of the last War. We still talk very confidently here of the King's Victory in a Month or Six Weeks at farthest; and should be best acquainted with the Designs of the Court, appear to be most firmly persuaded of the Success of this Report. It is whisper'd here, that because Resolutions necessary to be taken with regard to Affairs, some Steps of no less Importance attempted with regard to Domestic Concerns; present, no body pretends to determine, at least of what Nature those Steps will be. The Ministers from our Minister at the Porte intimate, that the Grand Signior intends to raise a considerable Fleet, in order to give Weight to the Mediation which he has offer'd to the Christian Powers, and it is likewise said, that the Porte has un- der the Request of a certain Potentate, to use Force with a neighbouring Republick, not to take Part in the War of Italy; but the same Minister in his Letter, that as these Reports are spread by the Ministry of a Foreign Minister there, whose Court is to be chiefly interested in these Events, it is prudent to expect the Confirmation of these Reports New before any Steps are taken in Reference

to them. April 17. On the 14th of this Month, Count Rowley, formerly the British Ambassador at the Court of Petersburg, arrived here, in his Way Home. Private Meetings are held by such of the Polish Nobles as reside here; from whence we conclude, that some Scheme already on Foot in relation to a Partition, in case his present Majesty of Poland should be Emperor; but it does not appear at all probable, that what has been published in some Foreign Papers, is written from hence, that there is Thoughts of King Stanislaus again upon the Throne, has any Foundation.

April 30. We have received the Confirmation of the Conclusion of the Peace between the Queen of Hungary and the Elector of Bavaria, in the same Ignorance we were last Post, of the particular Conditions of it. The News of the Retreat of the Hessian Corps having, at the same Time, been admitted to a Neutrality, is also confirmed by Letters from the Court of Cassel itself. In the same Time, the Austrians pursue their late Advantages with incredible Diligence and Success; and whilst the French were leading one Part of his victorious Army into Alsace, M. Bernclau, with the other, has made himself Master of a very rich Magazine at Dona- uau, taken 600 sick and wounded Prisoners at Dona- uau, according to some Advices, the Van Guard of the French was advanced on the 23d Instant as far as Franconia, and had gained two fresh Advan- ces over the French at Geislingen and Goppingen upon the Report of M. de Segur's having been made a Prisoner at the Affair of Pfaffenhofen, which was at first affirmed, is contradicted by the subsequent Reports. Our freshest Advices from Flanders mention, that the Operations are already begun there, and that the French present themselves in the Neighbourhood of the Scheldt, as if they intended to set down before that City in Form; and some People imagine, that the Intention of it must be already formed, because there are Letters by this Post from that Place.

April 23. The King has named the Bishop of Metz to the Archbishoprick of Vienne, the Abbe

Goyon to the Bishoprick of St. Pal de Laon, the Abbe Tinseau to the Bishoprick of Belley, and the Abbe Arches to that of Baionne. On the 20th of this Month, and on the two succeeding Days, the Prince de Campo Florido entertain'd the whole Court on account of the Marriage of the Dauphin with the Infanta: The King, the Queen, and the whole Royal Family, honour'd him with their Company. It is a Point settled, that M. Noailles goes with the King into Flanders; and it is said that M. Maillebois, who arriv'd here the Day before Yesterday, will command that Army instead of the Marshal de Saxe, who is so ill of a Dropsy, that it is absolutely necessary for him to be tapp'd. The new Marshal de Langeron goes in the room of M. Maillebois to command in Piedmont. The News we every Day receive from Germany gives us infinite Uneasiness; the rather, because on mentioning to M. Maillebois the recalling a Part of the Troops from the Rhine, he answer'd immediately, that he thought it would be better to recall them all, since it was morally certain they would be but of very little Service there. Some of our deepest Politicians seem inclined to think that there will be but one great Stroke struck this Year, and that in Flanders, with a View to make the Peace go down the better; for it seems to be a Thing settled, that a Peace must be had at all Events, the King being as much weary of the War as the People; and some stick not to say, that the Marshals Noailles and Konigsfegg are as capable of negotiating a good Treaty, as M. Boufflers and the Earl of Portland, who adjust'd that of Ryfwick at the Close of a Campaign. The Members of the East India Company are still very uneasy, notwithstanding all the fine Speeches made by the Intendant of the Finances, and the several Projects that have been form'd to make the late Demand set easy upon them. At present, our Actions are said to be 1230; but it is a Nominal Price only, for there are very few Buyers.

FOREIGN PORT.

Elfenour, April 24. N. S. Arriv'd Capt. Foster, from Hull, bound for Riga. By him there is Advice, that two Ships bound this Way are yet missing; viz. the Captains Vazy and Green, and are supposed to have put into some Harbour in Norway, or else to have fallen into the Hands of the Enemy. By our last Letters from Sweden we have Advice of the Loss of the two Swedish Ships bound for Canton, on the Coast of Shetland; which Ships sail'd from Gottenburgh in January last. Eighty of their Hands are since got safe to Gottenburgh, and Six are lost. A Dutch Smack laden with Salt is lost below the Koll, near Swederoe.

HOME PORTS.

Portsmouth, April 22. Yesterday arriv'd at Spithead from the Downs, his Majesty's Ship Wager, Capt. Forrest, for Newfoundland.

Deal, April 22. Remain the Duke Man of War, the Swift Privateer, and the two Ships for Virginia, as per last.

Gravesend, April 22. Pass'd by the Princess Louisa, Angle, from Norway; and the Libertus, Widmark, from Stockholm.

LONDON.

There are private Letters from Genoa, which say, that notwithstanding Appearances, that Republick is very far from being determined in favour of Spain; and that very possibly the Arrival of Admiral Rowley's Fleet may engage her to declare in earnest for a Neutrality.

According to private Letters from Frankfort, the German Regiments in the French Service, which on the 15th of February were mustered at 13,421 Men, are now reduced, by Deaths, Sickness, Desertion, and the two last Actions in Bavaria, to 1395; and it is believed that the Hessians and Palatins have suffer'd greatly, tho' not in any Proportion.

They write from Brussels, that according to the last Letters from Tournay, they were in no manner of Pain about the Designs of the French, having 160 Cannon mounted on their Ramparts, their Magazines in good Condition, and their Garison numerous and in high Spirits.

The same Letters say, that the French Garison in Furnes increases daily; so that they are in some Apprehensions of their undertaking some Enterprize or other on that Side; the rather, because it was known that a French General Officer was gone thither in Disguise.

Some private Letters from the Hague assure us, that the Hessians separated from the Bavarians, and declared for a Neutrality before the late Treaty was sign'd between the Queen of Hungary and his Electoral Highness of Bavaria.

Last Monday died, and not before, at his Seat near Saffron Walden in Essex, the Right Hon. the Earl of Suffolk. His Lordship married a Daughter of Thomas Inwin, Esq; late of the Borough of Southwark, by whom he has left no Issue.

Vice-Admiral Davaers, with the Ships under his Command, and the Store Ships, with the Trade under his Convoy, sail'd from St. Kitts the 25th of February, for Jamaica.

Last Week the Rev. Mr. Lynford Caryll, Fellow of Jesus College in Cambridge, was instituted to the Vicarage of Comberton in Cambridgeshire, void by the Death of the Rev. Mr. John Bradshaw, at the Presentation of the said College.

Last Saturday Mr. Peter Chester and the Rev. Mr. Henry Burrough, Chaplain to the Bishop of Ely, were elected Fellows of Katherine Hall in Cambridge.

Yesterday Mr. Alderman Pennant, one of the present Sheriffs, gave 100 l. to each of the following Hospitals; viz. Christ's, Bridewell, St. Thomas's, and the Foundling; and to the London Workhouse 50 l.

Yesterday being St. George's Day, the same was observed at Court as a high Festival; when the Knights Companions of the most Noble Order of the Garter, Thistle, and Bath, appeared in the Collars of their respective Orders.

The latter End of last Week a Domestick belonging to Sir John Cross, Barr. was accidentally shot dead, by a Pistol going off as he was taking it out of the Holster.
